

ActiView

Visualize.

From the **ActivClassroom**, every view is spectacular. Educators the world over already jet across continents and traverse eons in full color and motion through our ActivBoard and ActivInspire software, but now learning journeys can become even more real—with our ActiView Visual Presenter.

Put any object under ActiView's gooseneck-mounted lens and lamp combination and your treasures, text, even flora and fauna are projected in vivid detail on the ActivBoard. Examine the smallest shell with automatic zoom and focus. Capture still-frames or the fluid motion of waving butterfly wings, then save to a computer for future inspiration. Share your work with the entire classroom or build an image library of everyday objects and extraordinary finds for use in your lessons. ActiView puts the whole wide world on display.

The **ActivClassroom** by PROMETHEAN

ActiView

DETAILS

Flexible gooseneck means rather than moving delicate objects for a better view, the camera can come to them

Cold cathode lamp for 20,000 hours of illumination that's safe for little fingers, even when in use

Plug-and-play for quick connectivity

Supports USB 2.0 for fast interface with Windows PC and Mac

Three year warranty

FEATURES

Versatile input modes, including photo, text, 35 mm slide, grayscale, microscope, and negative film

Still and motion capture makes creating a custom library of images and video easy

Auto settings including zoom, focus, and light-adjusting auto-tune

Internal memory stores up to 120 JPEG images

Integrated with ActivInspire Professional Edition
